If you want a crystal and oscillator distribution partner that has it ALL, read on!

Dove Electronic Components thrives by building long-term relationships with our customers and satisfying their ever-changing needs. We recognize the importance of quality assurance to our customers which is why Dove has been certified to ISO9001 since 1994 and additionally to AS9100 since 2014.

At Dove, we know that in this industry, standing still is moving backwards. Our process of listening, responding, and having the ability to react to our customer needs quickly is just a part of our commitment to our future as well as yours. We pride ourselves on our flexibility to provide value-added services to our customers. These services include inventory management, forecast planning, consignment, just in time delivery and EDI just to name a few.

As lead times in our industry are increasing, Dove’s programming center can be a quick-turn solution. Our state of the art programming center allows us to ship product in 1-3 business days. We program oscillators for premier frequency control lines - Cardinal, Citizen, ECS, Epson, Microchip and Si-Time. Our experienced sales team can help you determine the right solution for your needs!
